Forecast For Grampian
Issued by Met Office Aberdeen
at 0400 on Thursday 28 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain, sleet, snow spreading northwards today.

Today:
Dry start with chance of limited brighter spells across north. Otherwise increasingly overcast with rain, sleet, snow extending from the south, reaching all during afternoon. Snow reaching quite low levels inland, with some heavy falls over higher ground. Maximum temperature 4 deg C (39 deg F).

Tonight:
Overcast with area of patchy generally light rain sleet and snow continuing. Around the immediate coast mostly falling as rain, but inland generally sleet and snow. Minimum temperature -4 deg C (25 deg F).

Friday:
Area of sleet and snow and coastal rain erratically clearing southwards as sunshine and wintry showers follow from the north. Maximum temperature 4 deg C (39 deg F).

Outlook for Saturday to Monday:
Cold with widespread frosts. Northerly winds feeding brighter spells and a scattering of rain, sleet and snow showers across northern areas, while south stays brightest and mainly dry.
